

WATCH SIZING GUIDE

Use this guide to help understand how different watch case sizes will look on your wrist. Simply print this page, and then cut-out the desired size. Now wrap the "strap" around your wrist. This is approximately how your new watch will sit on your wrist. For accurate sizing, print this page at 100% on 8.5" x 11".

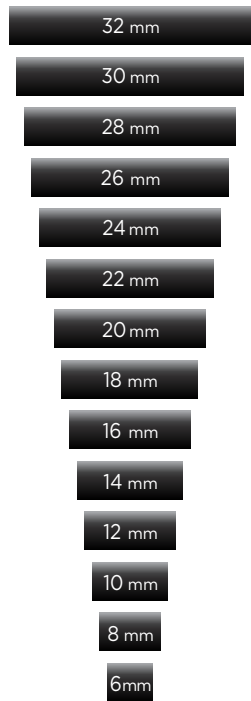

WATCH SIZING GUIDE

Use this guide to help understand how different watch case and band sizes will look on your wrist. For accurate sizing, print this page at 100% on 8.5" x 11".

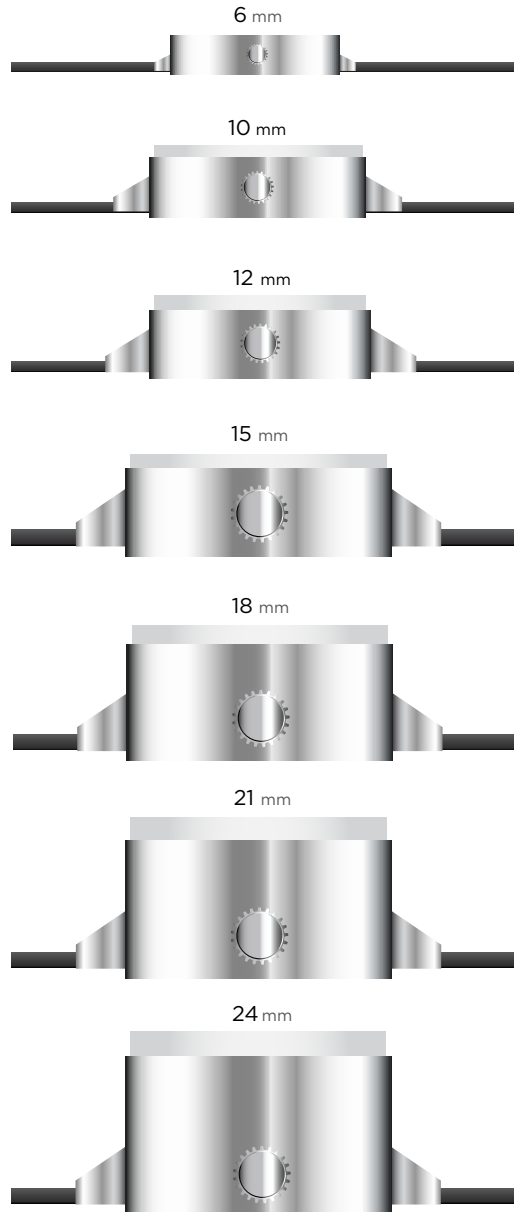

WATCH BAND WIDTH CHART

Measure your band width by fitting one of the millimeter bars between the lugs of your watch.

CASE THICKNESS

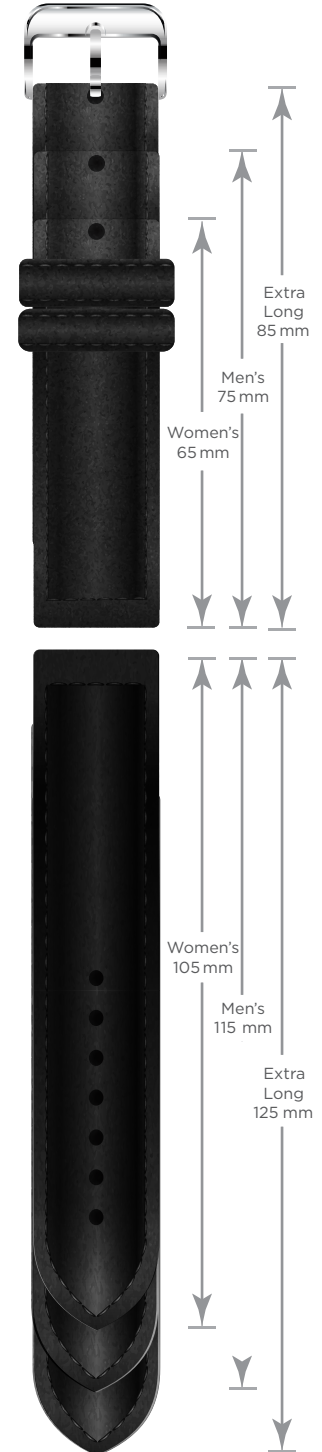

The thickness measurement refers to the width between the case back and the top of the crystal.
